TECHNICAL SKILLS

Programming Languages | Python 3, JavaScript ES6+, SQL, HTML5, CSS
System Design | Microservices, Domain-driven design, Message passing, Event sourcing
Back-End | FastAPI, Django 4, PostgreSQL, MongoDB, RabbitMQ, CI/CD
Front-End | DOM manipulation, Websockets, React

RELEVANT PROJECTS

Full Stack Software Engineer | NerdyBytes - Flashcard App Nov '23
| <https://gitlab.com/nerdybytes/nerdy-bytes> | **FastAPI, PostgreSQL, Javascript, Python, React, CSS, Material UI**

An application to create custom made flash cards for all subjects with a feature to connect and communicate with other users.

- Implemented **FastAPI** for seamless communication between frontend and backend.
- Ensured data security through encryption techniques for user information.
- Led the development of the real-time chat feature, allowing users to communicate seamlessly within the app
- Designed a visually engaging application with responsive design using **React, CSS, JavaScript, and Bootstrap**

Full Stack Software Engineer | Moto Car Dealership Oct '23
| <https://gitlab.com/kimpeaches/project-beta> | **Django, Javascript, Python, React, CSS**

A task management application for the smooth handling of sales and service appointments within an automotive dealership.

- Developed backend endpoints and handled authentication using **Python** and **Django** to ensure both application security and functionality
- Collaborated with a pair programmer to implement **RESTful API** patterns, to guarantee streamlined communication between the backend and frontend
- Integrated **Material UI, Bootstrap** to create an intuitive and visually appealing interface.

Software Engineer | TravelBuddy Planner | Sep '23
<https://gitlab.com/kimpeaches/project-alpha-apr> | **Django, Python, CSS, HTML**

A unified application for managing and planning your travel itineraries

- Created an interactive and adaptable front-end utilizing **HTML** and **CSS**
- Securely executed CRUD operations with user authentication and role-based access control
- Constructed **Django** models to establish the data structure and compartmentalize user data

PROFESSIONAL EXPERIENCE

Kimchi Studio | Freelance Web Developer Aug '22 - Present

- Delivered custom web solutions to clients, collaborating closely to meet their specific needs and goals
- Designed a visually appealing and user-friendly websites using HTML, CSS, and Webflow for website creation, while ensuring websites were responsive and cross-browser compatible

AOC, Inc. | Human Resource Administrator Oct '19 - Aug '23

- Successfully recruited and hired 3-4 applicants per week to maintain optimal nurse staffing levels across all bay area counties

- Established strategic partnerships between the company and multiple staffing agencies, resulting in successful outsourcing of clinicians

AOC, Inc. | Care Coordinator

Oct '15 - Oct '19

- Achieved a significant 30% increase in patient census by implementing effective strategies and initiatives
 - Streamlined admissions, onboarding, & registration procedures, efficiently processing **2000+ admissions**
 - Resolved complex healthcare situations within 24 hours by assessing the situation, consulting with the primary care team and sending the assigned clinician immediately to ensure optimal patient care
-

EDUCATION

Hack Reactor | Advanced Software Engineering Certificate

Aug '23 - Dec '23

- Full Stack Web Development
- Data Structures and Algorithms
- Real-time Web Applications
- Software Architecture and Design Patterns
- Agile Development and Project Management
- Security in Web Development

University of Santo Tomas | Bachelor of Science in Hospitality and Tourism Management

Jun '10 - Mar '14

- Tourism Industry Trends and Technology Integration
 - Customer Relationship Management in the Service Sector
 - Event Planning and Management
-
